Full Size Illustration of 6-inch Panel of International Metal Ceiling
Showing Re-Pressed Bead Joints and Die-Cut Nail Holes

MONEY AND TIME SAVERS AND TROUBLE ELIMINATORS

Re-Pressed Bead Joints and Die-Cut Nail Holes

ARE FEATURES OF

International Metal Ceilings

THE beads are re-pressed on dies made from tool steel. These dies are as true to size and shape as it is possible for the finest tools and most expert machinists to make them. There is no variation in any direction.

Not only are the beads re-pressed, but at each nailing point the metal is blanked out. This eliminates the driving of the nail through two and sometimes four thicknesses of metal, making erection easier and quicker. The plates are re-trimmed on four sides.

These improvements enable the sheet metal worker to do first-class ceiling work at a large saving of cost and annoyance; and to the architect and owner they are a guarantee that the erected ceiling will be free from open joints, the fault so common to the unpressed and old-style beads.

A saving of at least 25 per cent in the cost of erection will be effected if ceiling plates with

Re-Pressed Bead Joints and Die-Cut Nail Holes are Used

International Metal Ceilings, made under very strict supervision, have these money-saving features.

Get a set of samples and test them—a postal card request will be the whole cost. You will find the samples true on all sides, perfect fitting and in true alignment, and that the nail holes register perfectly at every test.

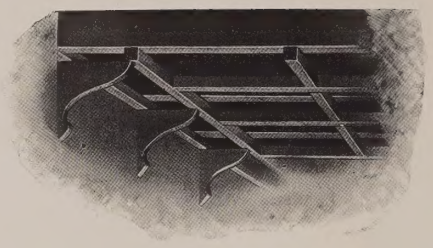
In erecting International Ceilings, the patterns cannot get out of line, no nails have to be driven through the metal and the job is done better and in much less time.

INSTRUCTIONS FOR APPLYING

FURRING FOR FLAT PLATES AND SHALLOW PANELS

STRIKE chalk lines the length of the room at distances indicated on the working drawing so they will coincide with the center lines of the nailing beads on the plates. On these lines, nail 7/8 x 1¼-inch furring strips. Between these strips and across the room, nail "headers" or cross strips at distances from center to center equal to the distances between centers of the nailing beads of the plates as indicated on the working drawing. Nail strips in angle of ceiling and wall and at a distance from the wall equal to the projection of the cornice to receive the cornice brackets. Bring the strips to a uniform depth by driving wedges between the strips and the old ceiling or joists, otherwise the ceiling will present an uneven appearance when completed.

Embossed plates and flush back panels may be applied to wood sheathing, in which case no furring strips will be required, but the sheathing should be level.



SINGLE FURRING

FURRING FOR DEEP PANELS

Nail furring strips the length of the room, as for flat plates, carefully leveling them with wedges. Then nail other strips at right angles on top of these, at distances from center to center equal to the distances between centers of the nailing beads of the panels, as shown on the working drawing. Nail "headers" or cross strips at right angles to the last strips and on top of the first strips applied. This will bring all strips to the same level. To bring the cornice to the level of the ceiling nail one strip on top of another in the angle between the ceiling and the wall, and at distance from the wall equal to the projection of the cornice.

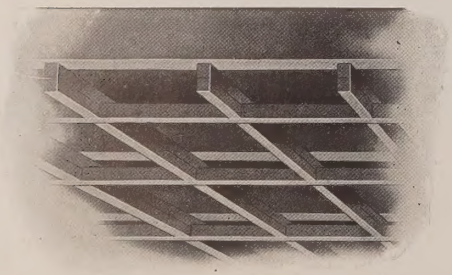
APPLYING CEILING

Apply the different members of the ceiling in the following order: Field, Filler, Mold or Border, Cornice.

Beginning at one corner apply the ceiling plates across and along the room, keeping the lapping edges running from the light. Each piece should be carefully lapped so the beads will be straight and true. The plates should be nailed at six-inch intervals with one-inch wire nails, with small heads. The filler plate is lapped under the members on either side of it.

When stamped cornice mitres are used they should be fitted into the corners of the room before applying the cornice.

Close or "swedge" with a small dull tool any joints which may not have lapped tightly, owing to the lapping beads having been bent or flattened in applying.



DOUBLE OR CROSS FURRING

PAINTING METAL CEILING

All of our ceiling material is provided with a priming coat of paint on both sides. After the material is erected it should have two coats of good paint on the face. In order to get the best effect and properly distribute the light over the rooms, a gloss paint should not be used. Gloss paint becomes soiled and shows wear just as quickly as a paint that is flat or without gloss.

We recommend a very simple treatment, because the embossed ornaments on our metal ceilings are sufficiently decorative without elaborate painting. The best effect is produced by using white paint or a paint slightly tinted to harmonize with the general color scheme of the room. On the cornice can be used a darker tint to blend with the ceiling and other decorations in the room.

The following method is a good one: Dust or clean off any dirt or grease spots from the metal; mix the first coat of strictly pure white lead, using equal parts of raw linseed oil and turpentine; tint the same color you desire to finish with. When first coat is dry go over with a mixture of strictly pure white lead thinned to the desired consistency with pure turpentine; tint the same as first coat.

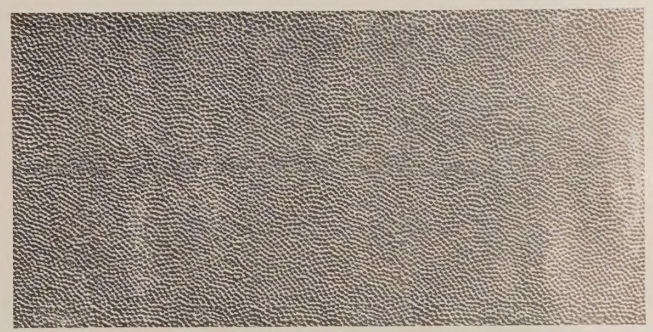
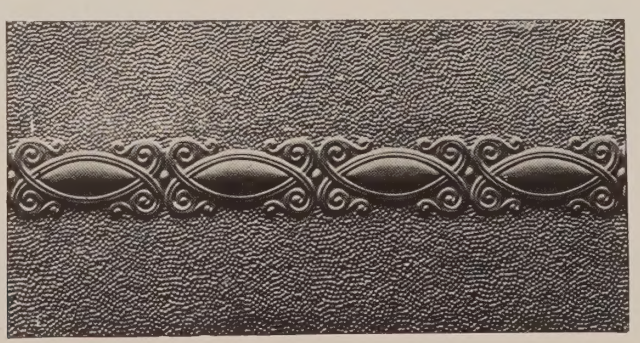
$8.00 per square 24 x 96 in.



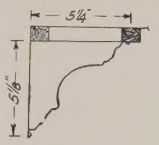
No. 4806 Filler

6, 8, 10, 12, 14, 16, 18, 20 and 24 x 48 in.
24 x 96 in.
$8.00 per square 30 x 96 in.



No. 4807 Filler

8, 10, 12, 14, 16, 18, 20 and 24 x 48 in.
24 x 96 in.
$8.00 per square
Width of center ornament 6 in.

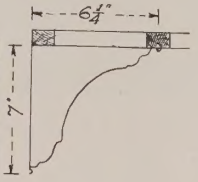


No. 4197 Cornice 5¼ in. projection 5⅛ in. deep 48 in. long
10 cents per lineal foot, including wood brackets

No. 4197 Inner Mitre

40 cents each

No. 4197 Outer Mitre

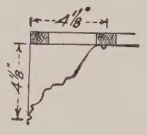


No. 4222 Cornice 6¼ in. projection 7 in. deep 48 in. long
12 cents per lineal foot, including wood brackets

No. 4222 Inner Mitre

50 cents each

No. 4222 Outer Mitre

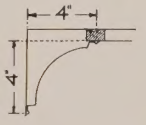


No. 4354 Cornice 4⅛ in. projection 4⅛ in. deep 48 in. long
8 cents per lineal foot, including wood brackets

No. 4354 Inner Mitre

40 cents each

No. 4354 Outer Mitre



No. 4868 Cornice 4 in. projection 4 in. deep 48 in. long
7½ cents per lineal foot, including wood brackets

No. 4868 Inner Mitre

40 cents each

No. 4868 Outer Mitre

No. 4293 Cornice 2½ in. projection 3¾ in. deep 48 in. long
6 cents per lineal foot (without brackets)
7 cents per lineal foot (with brackets)

No. 4293 Inner Mitre

30 cents each

No. 4293 Outer Mitre

No. 4836 Cornice 4⅜ in. projection 4 in. deep 48 in. long
8 cents per lineal foot (without brackets)
9 cents per lineal foot (with brackets)

No. 4836 Inner Mitre

30 cents each

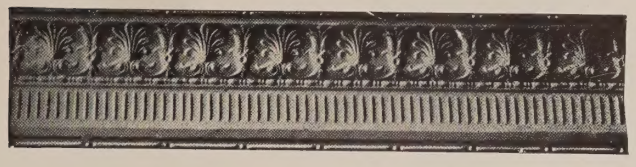
No. 4836 Outer Mitre

No. 4816 Cornice 6¼ in. projection 6⅝ in. deep 48 in. long
10 cents per lineal foot (without brackets)
11 cents per lineal foot (with brackets)

No. 4816 Inner Mitre

No. 4816 Outer Mitre

40 cents each

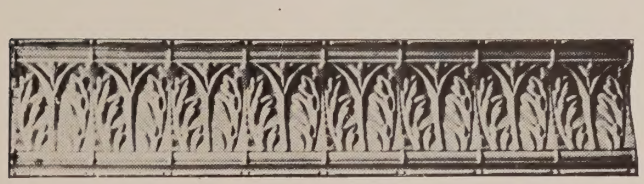


No. 4469 Cornice 5 in. projection 9¾ in. deep 48 in. long
13 cents per lineal foot, including wood brackets

No. 4469 Inner Mitre

No. 4469 Outer Mitre

40 cents each

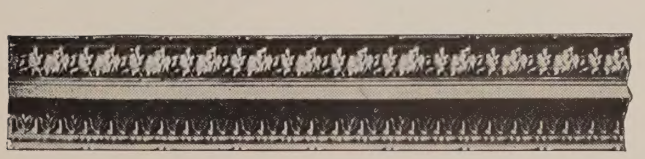


No. 4815 Cornice 6¼ in. projection 8⅛ in. deep 48 in. long
13 cents per lineal foot, including wood brackets

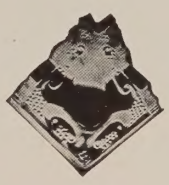
No. 4815 Inner Mitre

No. 4815 Outer Mitre

50 cents each



No. 4292 Cornice 6½ in. projection 6¼ in. deep 48 in. long
12 cents per lineal foot, including wood brackets



No. 4292 Inner Mitre

No. 4292 Outer Mitre

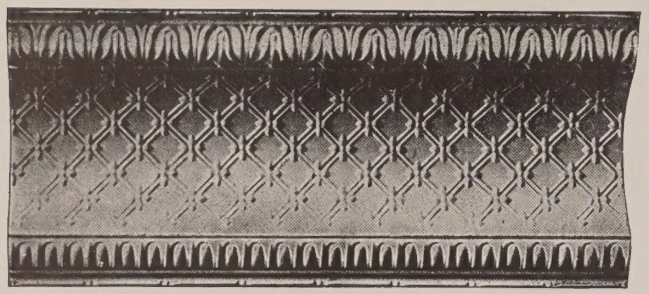
50 cents each

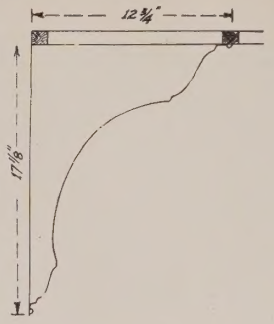
No. 4299 Cornice 4½ in. projection 5⅛ in. deep 48 in. long
9 cents per lineal foot, including wood brackets

No. 4299 Inner Mitre

No. 4299 Outre Mitre

40 cents each

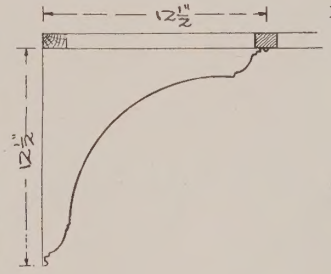




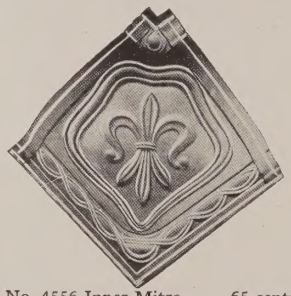
No. 4250 Cornice 12¾ in. projection 17⅛ in. deep 48 in. long
22 cents per lineal foot, including wood brackets

No. 4250 Inner Mitre 75 cents each

No. 4250 Outer Mitre

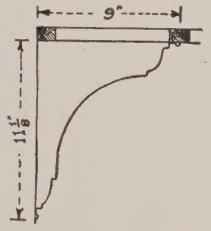


No. 4556 Cornice 12½ in. projection 12½ in. deep 48 in. long
20 cents per lineal foot, including wood brackets



No. 4556 Inner Mitre 65 cents each

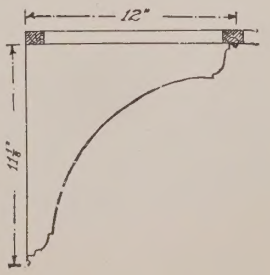
No. 4556 Outer Mitre



No. 4221 Cornice 9 in. projection 11⅛ in. deep 48 in. long
17 cents per lineal foot, including wood brackets

No. 4221 Inner Mitre 65 cents each

No. 4221 Outer Mitre



No. 4640 Cornice 12 in. projection 11⅛ in. deep 48 in. long
20 cents per lineal foot, including wood brackets

No. 4640 Inner Mitre 65 cents each

No. 4640 Outer Mitre
